

## Anti-Glare Filter fo Galaxy Tab A 10.1

The anti-glare filters reduce reflections caused by sunlight and protect the screen from scratches.

The anti-glare filters are made with the latest laser cutters and cut to the right size with maximum reliability. The filter is extremely easy to fit. It takes just a few seconds for it to adhere to the full surface of the display and begin carrying out its functions. No more scratches, fewer annoying fingerprints and a high degree of anti-reflection coating for your display. It can be easily removed at any time without leaving any residue. This is a quality German product you can rely on, and is simple and handy to use.
