SALAMANDER
DESIGNS
Furniture Shaped By Your Needs ®

Demanding projects require a manufacturer with trusted experience and resources. Salamander crafts technology furniture that is shaped by your business and workplace needs, and our solutions provide a new level of workplace flexibility, connecting technological functionality and ergonomics with design aesthetic. Our professional grade, premium quality furniture systems, are engineered to perform, simple to install, and built to last.

Salamander's advanced, flexible furniture solutions are designed to satisfy:

- **Integrators** appreciate high level of functionality and ease of setup.
- **Architects and designers** respect stylistic autonomy, selection, and furniture solutions that provide ADA compliance.
- **Users** respond to comfort and ergonomics, which increases productivity.

ONE STEP BUNDLES

In this book you will see credenza bundle solutions that include some of the most asked-for products in the market.

See Our **full-line catalog** for customizable credenzas for a wide range of applications.

TELEPRESENCE SOLUTIONS

D2/367BM2/MM/GW

Technological convergence has arrived in today's business environments. Furniture should also be smart and agile to support the unified communications technology that drives user engagement.

FPS1XL/EL/GG

FPS1/ELT/GG

Motorized stands add functionality, flexibility, and style to collaborative workspaces.

Our credenza solutions provide high-level workplace flexibility, connecting technical functionality with design aesthetic.

D2/347BM2/OS/BG

COLLABORATION SOLUTIONS

D1/337AM1/BL/WE

Businesses today operate in fluid, dynamic environments. Salamander builds furniture that defines and shapes today's office -- and tomorrow's. We help create adaptable, collaborative, enduring furniture that is built to perform and to last.

CREDENZAS

ONE STEP
BUNDLES

These robust, large-capacity cabinet systems house all electronics, including integrated support for AV and IT systems. Freestanding and fully-integrated, credenzas are perfect for retrofit installations, allowing for quick and efficient installation without involving additional tradespeople to install electrical wiring or reinforce walls.

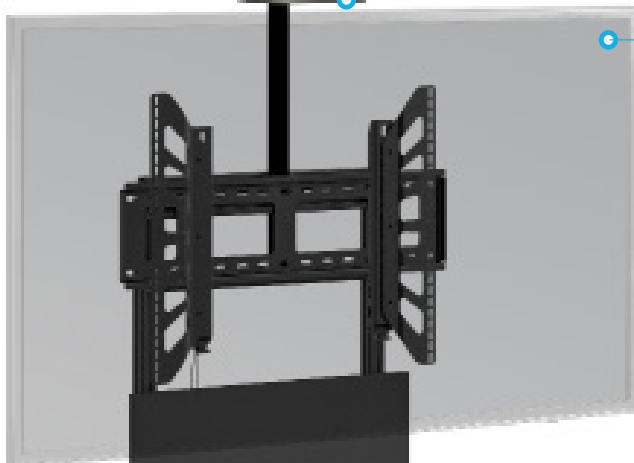

D2/347BM2/CH/BO

Credenza Bundles include a selection of our most popular options.

ONE STEP BUNDLES

Camera Shelf

VIDEO

SINGLE OR DUAL MONITOR

Integrated mount with black modesty panel and camera shelf.

VESA Compliant:

Horizontal 200 - 850mm
Vertical 200 - 500mm

Adjustable Center of Screen settings:

61.5" / 59.75" / 58" / 56"

Aluminum Frame

Durable and flexible support chassis.

Approx. 22"D

RACK MOUNTING

13-U RACK CARTRIDGE

Pull-out 19" standard rack with rails front and back of the rack. It slides in and out quickly, enabling easy placement, removal and maneuver of full equipment racks during installation and service.

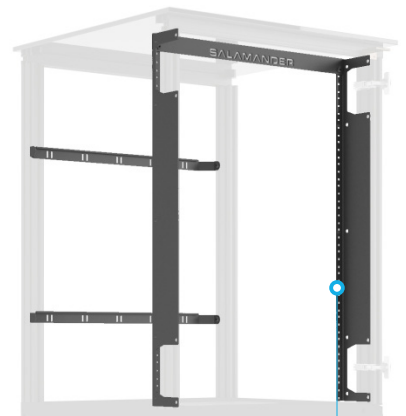

Ventilation

Built-in louvers for better air flow to keep equipment cool.

Soft-Close Doors

COOLING & ACCESS

STORAGE

15-U RACK RAILS

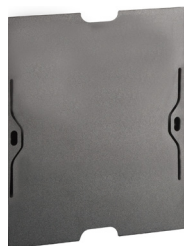

Rack Rails are mounted to cabinet frame, for industry standard 19" rack mounting components.

Includes lacing bar for cable management.

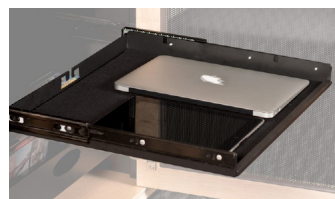

ACTIVE COOLING

Automatic, low-noise cooling system.

PINCH-OUT REARS

Permit fast, easy access to components and wiring.

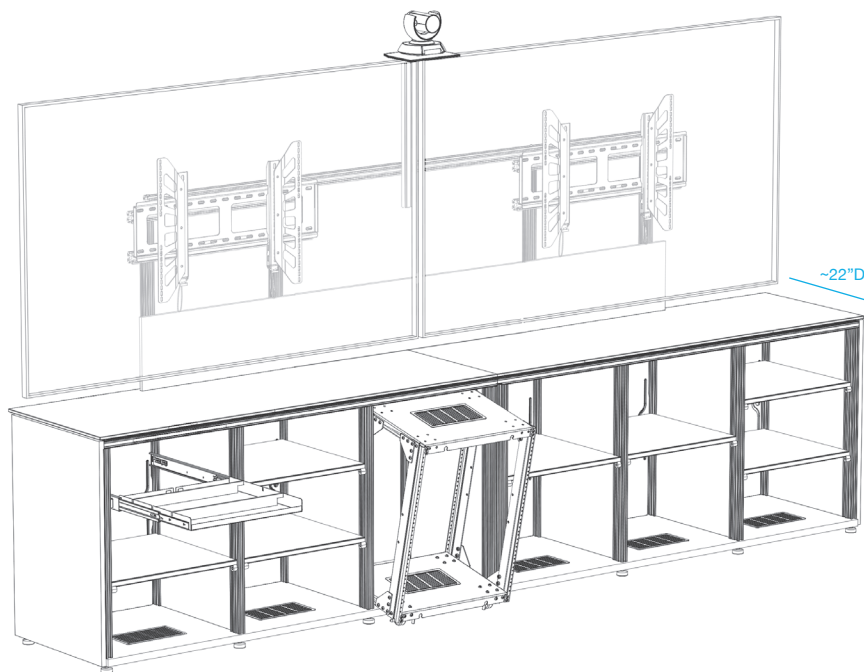

PULL-OUT TRAY

Adjustable position.

6 BAY CREDENZAS

WALL CABINETS

ONE STEP BUNDLES

Low-profile, shallow depth credenzas are sleek, streamlined solutions for supporting AV/IT technology. Our innovative design conceals all equipment and cables, and simple installation allows them to be affixed to any wall without special preparation. A unique, shallow depth provides a comfortable working position for interactive display users.

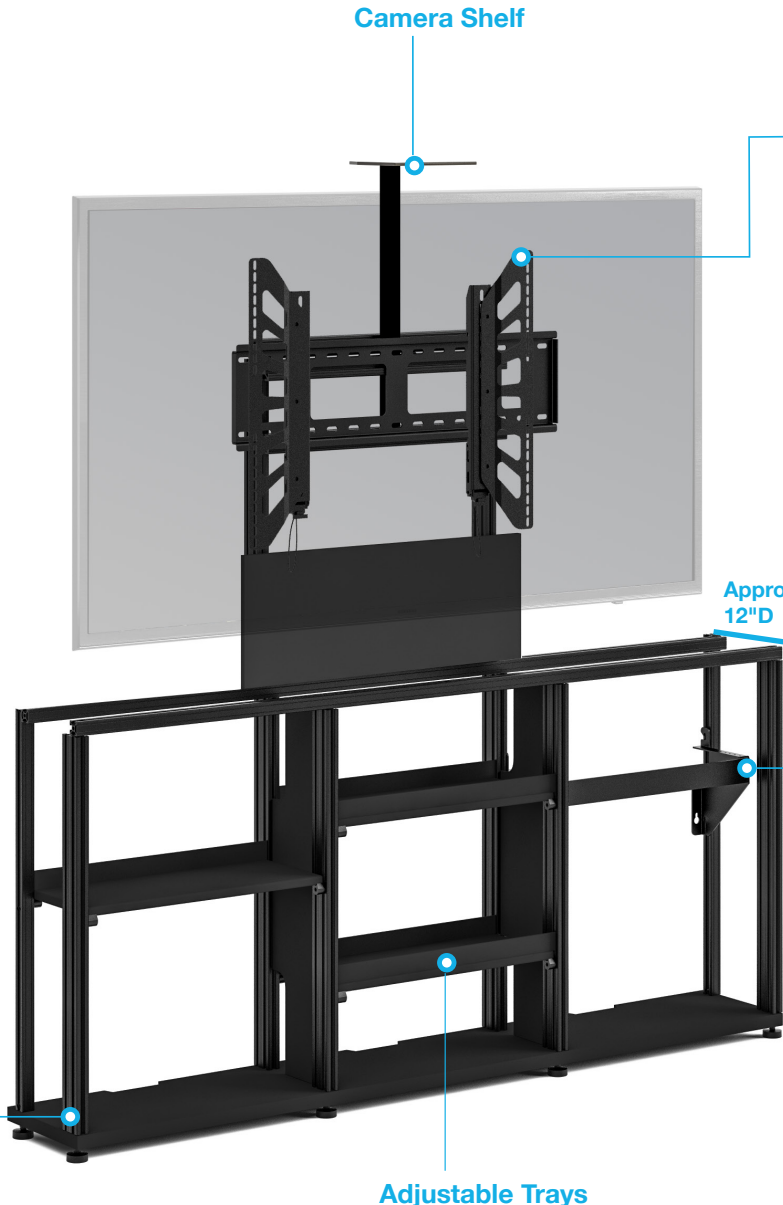

*ADA COMPLIANT

* ADA COMPLIANT

The Americans with Disability Act (ADA) Standards for Accessible Design was adopted by the Department of Justice to help create buildings and facilities that are accessible to more than 50 million Americans with disabilities.

The ADA requires that all new construction of places of public accommodation and commercial facilities be accessible. These include a wide range of entities, such as office buildings, and public spaces. The proper furniture selection can help to provide compliance for accessibility.

For example: Section 307: Protruding Objects. If your Display monitor is wall-mounted and has nothing below it to alert someone with visual impairments navigating with a cane to its presence, it can have a maximum depth of 4 inches from the wall. Simply by specifying an integrated cabinet below the display can provide compliance.

If you are considering a technology deployment or are making updates to an existing space, these requirements may apply. Ignoring them can put your business or organization at risk for legal action.

ADA Standards for Accessible Design, US Department of Justice 2010 Standards: Titles II and III; Chapter 3: Building Blocks Relevant Sections: 307 Protruding Objects, 308 Reach Ranges, 309 Operable Parts.
