

## USB 3.1C Male to HDMI Female Black

### FEATURES

- Connect your USB Type-C device to any HDMI display
- Support both audio and video output.
- Video resolution is up to 4K\*2K@30Hz.
- Small and Portable
- Simple connection through reversible Type-C connector

USB Type C is the new connector for computer, peripherals and mobile devices. On new computer products the USB Type –C will replace connectors for DisplayPort, proprietary power, and the traditional USB. Finally delivering a cable that is truly universal. Our USB 3.1C Male to HDMI female adaptor enables you to output HDMI video and audio from any USB Type-C device. This adaptor works with USB Type-C devices that emit a DisplayPort video signal. The adaptors lightweight design means that you can easily take it with you wherever you need.
