

Secret for DELL Latitude 5285, side mounted

Highly effective privacy protection for your notebook screen. Protects your data effectively from prying eyes.

The innovative microlamella technology in the protective film provides glare protection, allowing for relaxed work even when the sun is shining directly on the screen. The user has an unrestricted view of the screen, but from the side, only a black reflective service is visible. The filter also helps to prevent scratches on the screen and reduces fingerprints.
