CA6700/55

Remove scale and prolong your machine's lifespan

Decalcifying your coffee machine regularly is essential to ensure it performs at its best and offers you the best tasting coffee. Please use only Philips descaler to ensure the maximum lifetime and the safety of your Philips and Saeco appliances.

Sensational coffee quality

- Ensures the coffee temperature is right for enhanced taste
- Maintains the coffee taste over time

Reliable machine protection

- Only use Philips consumables

For a long-lasting espresso appliance

- Perfect decalcification for a prolonged machine lifetime
- Philips approved descaling solution
- Protects your system against limescale build-up

PHILIPS

Highlights

Perfect decalcification

The Philips decalcifier cleans all the water circuits in your espresso machine.

Protected from limescale

Limescale is a natural part of water used for the machine's operation. This special decalcifier protects your appliance from the build-up of limescale which affects performance and taste. It is highly effective, safe and easy to use.

Philips approved descaling

The exclusive formula of the Philips espresso machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

Maintain the coffee taste

Regular maintenance ensures the best taste and aroma from your Philips and Saeco espresso machine.

Coffee temperature is right

The decalcifier removes limescale residues in the water cycle that would absorb heat from the boiler, therefore lowering your coffee temperature.

Philips Original

Please use only Philips consumables to ensure the maximum lifetime and the safety of your Philips and Saeco appliances. Applicable for all accessories***
