

# HPE ETHERNET 10GB 2- PORT BCM57416 ADAPTER

## Host Adapters

### OVERVIEW

Are you looking for an easy and cost effective transition to 10GBASE-T with enhanced security features? The HPE Ethernet 10Gb 2-port BCM957416 Adapters utilize CAT 6A cabling with distances up to 100 meters and is backward compatible to existing 1GBASE-T infrastructure. This allows quick and easy incremental improvement of network speed without either changing the cables or major upgrade of equipment. These adapters help prevent, detect and recover from cyber attacks by protecting applications, data and server infrastructure by authenticating digitally signed firmware via a

Root of Trust architecture. In addition, they offer Secure Boot, Device-level Firewall and other advanced security features.

## FEATURES

### Protect Your Business Network and Your Data

The HPE Ethernet 10Gb 2-port BCM957416 Adapter provides traceability into authenticated firmware updates by capturing changes in standard system logs via Audit Logs.

Safeguards the NIC and verify no rogue drivers are being executed on start-up with Secure Boot.

Authenticates updates for NICs that signed firmware is correct and trusted to reduce rogue firmware installation.

### Increase I/O Bandwidth for Workload Intensive Applications

The HPE Ethernet 10Gb 2-port BCM57416 Adapter delivers single root I/O virtualization (SR-IOV) which increases virtual network performance while decreasing CPU utilization.

Reduces CPU Utilization and helps improve host VM density and server efficiency using remote direct memory access (RDMA) over Converged Ethernet (RoCE v2) for Live Migration, Microsoft SMB Direct environments.

### Affordable Network Performance

The HPE Ethernet 10Gb 2-port BCM57416 Adapter provides a seamless performance upgrade from 1GBASE-T to 10GBASE-T with backward compatibility.

Offloads packet processing to reduce CPU utilization and lower power with Tunnel Offloads(VXLAN and NVGRE).

Speeds packet processing to service more I/O requests utilizing data plane development packet (DPDK).

## Technical specifications

## HPE Ethernet 10Gb 2-port BCM57416 Adapter

|                  |              |
|------------------|--------------|
| <b>Data rate</b> | 10Gb         |
| <b>Bus type</b>  | PCIe Gen3 x8 |

## HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

### Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

**HPE Integration and Performance Services** help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

### Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
