Dedicated Portrait Models

FP63A (400x600)

TP63A (400x600)

VWP4600 (400x600)

ADLP Rotation Accessory

Allows Landscape to Portrait Rotation Without Monitor Removal

■ **Three Dedicated Portrait Models**

FP63 (flat), TP63 (tilt) and VWP4600 (video wall) are models specifically for mounting a large monitor in portrait orientation.

■ **Fixed Portrait or Landscape**

All mounts shown in this table can mount a monitor in either portrait or landscape orientation. After installation, in order to change orientation, monitor would need to be removed.

■ **Landscape to Portrait on the Fly**

Models marked with symbol, are compatible with the ADLP rotation accessory. With ADLP installed, monitor orientation can be repeatedly changed from landscape to portrait without removing the monitor.

■ **VESA Compatible Design**

ADLP accessory has VESA hole patterns for 100x200 and 200x200 built in. All other patterns require a monitor interface adapter, which is included with each respective Crimson mount.

■ **Construction**

Fabricated from high-grade cold rolled steel with durable epoxy powder coat finish. Includes a complete array of high-grade fasteners, in a pre-sorted hardware pack for easy selection. UL Listed.
