

HPE BladeSystem c-Class NC532m 10GbE 2-port Adapter (B9F55A)

Adapters

Overview

Looking for a 2 port 10GbE mezzanine adapter card for Virtual Connect on your HPE BladeSystem? The NC532M is a multifunction 10 Gigabit Ethernet network adapter for the ProLiant c-Class BladeSystem. The adapter is a dual port 10GbE mezzanine that when paired with the new 10Gb Virtual Connect Module provides up to eight physical function NICs that can be configured to operate at any speed from 100 Mb/s to 10 Gb/s. The NC532m works as a standard dual port 10GbE NIC when connected to non-Virtual Connect devices such as the HPE 6120XG. The adapter ships with support for VLAN tagging, QoS, teaming (bonding), Receive Side Scaling (RSS), PXE. The NC532m adapter is supported in ProLiant c-

class server Type I and II mezzanine slots allowing customers to provision their servers with unprecedented bandwidth never before available in a blade.

Features

The HPE NC532m Dual Port 10GbE Multifunction BL-c Adapter

Delivers outstanding network performance that improves response time and removes bottlenecks required for the next generation data center.

Allows you to evolve 10GbE at your own speed! When paired with the HPE Virtual Connect Flex-10 10 Gb Ethernet Modules, take advantage of the Flex NICs, which are PCI Physical Function devices that are OS independent.

HPE Pointnext

HPE Pointnext leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes – Advisory, Professional, and Operational Services is designed to help you evolve and grow today and into the future.

Operational Services

- **HPE Flexible Capacity** is a new consumption model to manage on-demand capacity, combining the agility and economics of public cloud with the security and performance of on-premises IT.
- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalise deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.
