

Digital badge program

Earn free digital badges
when you complete select
HPE Education Services courses

Why get a digital badge?

1. Digital badges are replacing paper certificates as proof of learning.
2. Badges are an easy way to verify your learning accomplishments.
3. They demonstrate a deeper knowledge on specific subjects.
4. Badges provide recognition for learning new skills.
5. Badges can easily be shared and displayed on social media.

Show off your technical prowess with a digital badge

Discover the value of earning badges

The HPE Education Services digital badge program recognizes IT professionals for their talents, skills, and training achievements with verified credentials in the form of digital badges.

How it works

When learners complete the required courses, they have the option to take a skills assessment (included free with course registration). Once they pass the assessment with a score of 80% or above, they will earn the badge. Many badges are available after taking just one course.

Badges accommodate all learning levels

Digital badges are available in three categories: Fast Start (beginner), Specialist (intermediate), and Administrator (expert). They cover a variety of subjects, including HPE Alletra Storage, HPE GreenLake cloud, HPE Synergy, HPE Ezmeral, Veeam, and more. Badge-eligible courses come in multiple formats: HPE Digital Learner, virtual instructor-led training (VILT), instructor-led training (ILT), and individual eLearning courses.

Share your achievements with your professional network

HPE Education Services digital badges provide an easy way for learners to share and validate skills, experience, and technical knowledge with their professional network. Badges are web-enabled versions of credentials or learning accomplishments that are verified online, in real time, by Credly. Earners can then share these credentials on social profiles with confidence. Once badge earners accept privacy terms, they have complete control over badge sharing.

Browse courses with digital badges

Digital badges are available for a variety of HPE Education Services courses, and new badges are added regularly. [Visit the HPE digital badge hub on Credly](#) or the [HPE Education Services digital badge page](#) for the complete list of eligible courses.

Table 1. Examples of HPE courses with digital badges
