Vertical Cable Tray for 483 mm (19") Network- and Server Racks

✔ for 42U racks

✔ easy installation

✔ for optimized cable routing

✔ grey (RAL 7035) or black (RAL 9005)

Abstract

Vertical cable tray for 483 mm (19") network- and server racks, 1650x130x25 mm
Features

- sturdy steel sheet material, galvanized and powder coated
- several holes and T-heads for cable management

Product Overview

The vertical cable tray can be easily installed to all 42U network- and server racks of the Unique series
as well as network- and server racks of the Dynamic Basic series from DIGITUS Professional. Several holes
and T-heads allow an optimized cable routing for installation cables or similar.
Best usage together with Velcro tape (part. no. e.g. DN-CT-10M-20) in order to save the cables
against scratches or standard cable ties. Other height versions are available on request.
