

ANT-O-6 is a set of 4 omnidirectional antennas for use in 802.11n/ac applications. It provides coverage in the 2.4-2.5 GHz and 4.9G~5.825GHZ frequency band.

**Model Name:** ANT-O-6

**Part No. :** C147-511171-A

**Frequency / Gain**

- 2.4-2.5GHz (4 dBi)
- 4.9-5.825GHz (6 dBi)

**Polarization**

- Linear, vertical

**Impedance**

- 50 ohm

**Admitted power**

- 1 watt

**VSWR**

- 1.92:1 Max

**Mounting Style**

- direct mount on AP

**Connector**

- SMA plug reverse

**Dimensions**

- 168x18x13mm

**Weight**

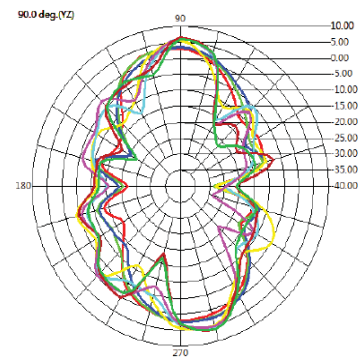

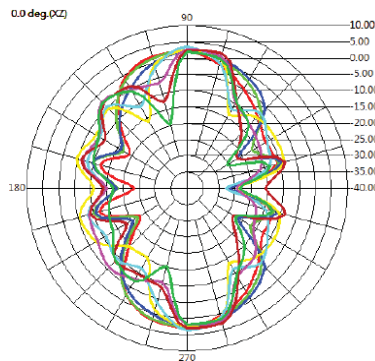

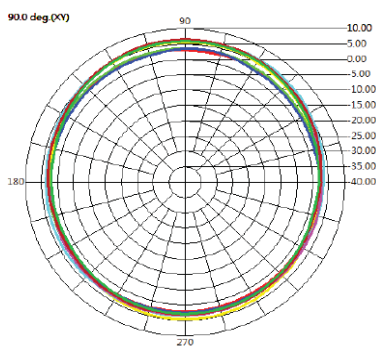

- 21 g

**Radome Material**

- ABS, PC

**Temperature Range**

- Operating Temperature: -10°C to +60°C
- Storage Temperature: -10°C to +70°C

Packing List (per single pack box)		
No	Name	QTY
1	Antenna	4
