

MANUAL LUMA 2

CEILING- OR WALL-MOUNTED, FREE-HANGING

■ A heavy-duty, spring-roller projection screen, the wall- or ceiling mounted **Luma 2** presents an attractive yet practical choice wherever a large manual screen is needed. The Luma 2 is simple in design, yet engineered with heavy gauge components to provide years of dependable operation.

FEATURES

- High-quality, spring-roller projection screen can be wall- or ceiling-mounted.
- Steel case with scratch-resistant white polyester finish with matching endcaps. Black finish available upon request.
- Endcaps form universal hanging brackets for attachment to wall or ceiling.
- Ceiling trim kit available for recessed installation

WARRANTY

OPTIONS

- **AutoReturn** provides a smoother, quieter retraction for the wall- or ceiling mounted Luma 2 spring-roller projection screen. A simple pull automatically retracts the projection screen. It slows the return as the screen approaches

its upper limit. This reduces friction and eliminates any banging when the screen enters the case preventing potential damage. Intermediate stop positions allow you to lower, raise completely, or at any point in between.

- Floating mounting brackets (for wall and ceiling).
- Operating pole available in lengths of 4' (122 cm) and 6' (183 cm)..
- **Viewing Surfaces:** OptiView™ (self-supporting) family. Chroma Key surfaces available.

SUPPORTING DOCUMENTS

All instructions, technical drawings and other supporting documents are located at: draperinc.com/documents.aspx

Spring-roller operated screens for simplicity of operation and no wiring set-up or cost. Free-hanging, fiberglass-backed projection screens maintain flatness thanks to the weight of the screen and bottom dowel.
