

## Introducing Solstice Subscription

Solstice Subscription (formerly Solstice Software Maintenance) allows customers to access innovative new features and capabilities via software updates after their initial Solstice purchase. As a software-based platform, Mersive Solstice can be updated easily in response to new market requirements that emerge and in order to deliver enhancements that further optimize meeting space collaboration and productivity. Solstice administrators can download these software updates and deploy them at scale via Mersive's centralized management tool.

One year of Solstice Subscription is included with the original purchase of every Solstice Pod and Solstice Display Software for Windows license. Extended Solstice Subscription is available at a discounted rate when purchased up front or for 20% of the original purchase price when renewed annually.

## Benefits of Solstice Subscription

- Access to all Mersive software updates, which include new features, capabilities, bug fixes, and security hardening
- Access to Mersive Kepler deployment monitoring and meeting analytics cloud service
- Access to tier-1 technical support team

## Innovative Features to Continually Optimize Meeting Spaces

Mersive is developing new features and improvements to Solstice on a regular basis. Gain access to these updates with Solstice Subscription.

## Major Capabilities Recently Delivered via Solstice Subscription

- Solstice Ink Collaborative Markup
- Miracast Streaming Support
- Digital Signage Playback
- Room Calendar Integration
- Multi-Room Collaboration
- *And more!*

Solstice Pods and Display Software licenses with expired Solstice Subscription can always renew in order to access the latest software updates.
