

MIDDLE ATLANTIC'S

LECTERN GUIDEBOOK

L7, L5 AND L2 SERIES

A full suite of lecterns to meet
the needs of any application

What is Frame to Furniture?

Where functionality meets design.

OVERVIEW

Frame to Furniture is Middle Atlantic's hallmark furniture design and integration solution drawing on four decades of market-leading expertise in supporting and protecting audiovisual systems.

BUILT TO LAST

The Frame to Furniture approach protects your investment by providing system longevity. The built in passive or active thermal management and cable management ensures consistent system uptime. The removable wood kit means that if a panel gets damaged, the room gets updated or you just want a new finish, simply order a different wood kit to replace the previous one without disturbing the already installed equipment.

HOW IT WORKS

The majority of our collaboration furniture is built around a robust steel frame to properly support AV systems and then is concealed by the wood kit, elegantly hiding the AV system in plain sight.

The frame is delivered first to allow for unobstructed integration of the system and prevent any accidental on-site damage to the wood. The frame provides proper thermal and cable management for maximum uptime of the equipment inside. The wood arrives shortly after and completely conceals the system in the environment.

SEAMLESS WORKFLOW

We understand the integration and commissioning workflow of an AV system to get a room up and running in a timely manner. Our limitless options for wood kits meet the aesthetic requirements of any space and are designed to be easily installed once the system is in place.

Inspirational Learning Spaces

INSPIRE

- Flexible lecterns that enhance & simplify the educator's experience with technology
- Broad range of solutions for a variety of education environments, from lecture halls to classrooms and everything in between
- Multitude of finish options available to complement any learning environment, traditional to contemporary
- Pre-configured and custom lectern solutions available to meet any need

L7 Lecterns

Innovative modern, height-adjustable ADA compliant design, available in three elegant finishes that complement most modern learning environments. L7 Lecterns enhance educator comfort while supporting modern education technologies to create innovative learning environments. Lectern frame + woodkit ship fully assembled for ease of installation and integration, and with integrated power (wired and wireless), cable & thermal management to ensure ultimate system reliability.

Features

ADA Compliant

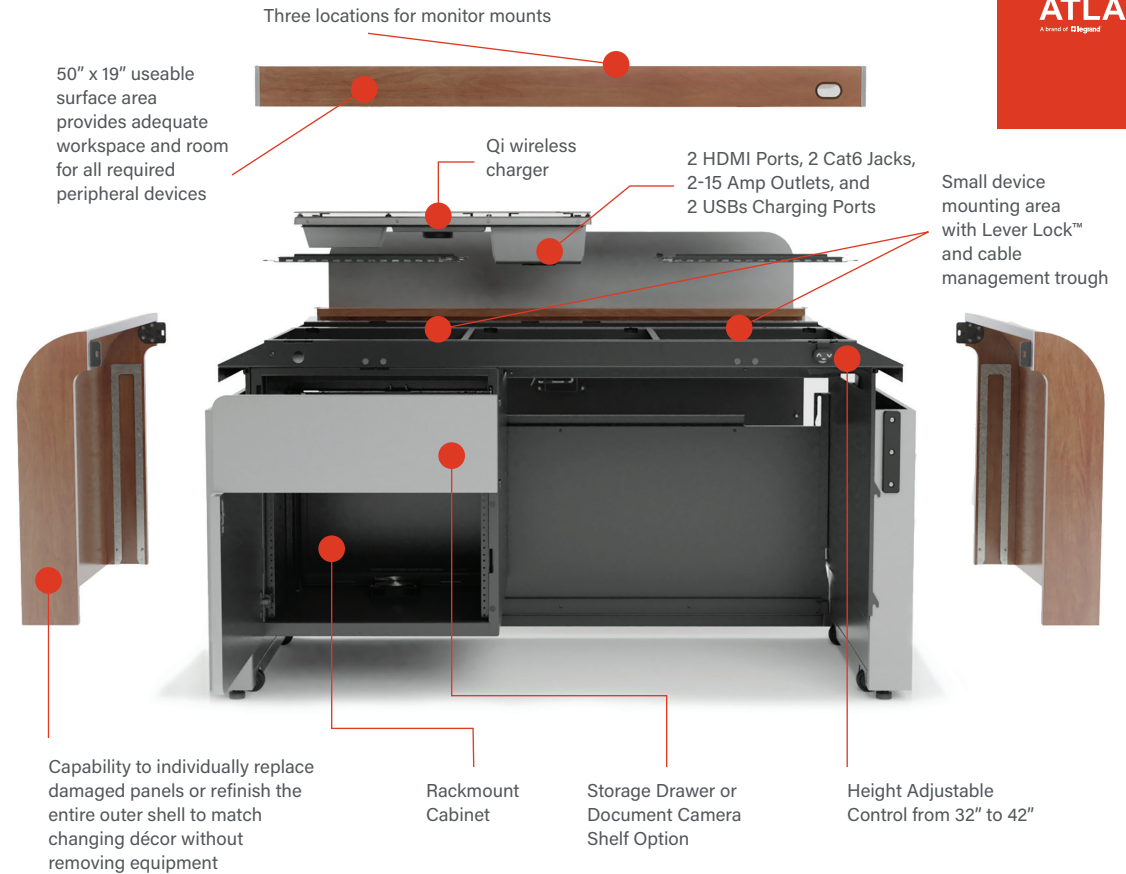

Electrically Height Adjustable

Three color options:
Brite White and Glamour
Cherry from Formica®
and Montana Walnut
from Wilsonart®

Four different rack sizes:
6RU, 8RU, 10RU and 12RU

L5 Series Lectern Wood Kit Decoders

The L5 Series Lectern Wood Kits now have a unique part number that is automatically generated by the configuration tool at legrandav.com.

Explore the example part number below to learn more.

L5 LECTERN WOOD KIT			WIDTH	DEPTH	HEIGHT	STYLE	STYLE TWO	MATERIAL	COLOR		AUTO-GENERATED SUFFIX			
L	5	K	B	B	2	E	B	H	A	0	X	X	X	X
SIZE, SHAPE AND MATERIAL									FINISH		UNIQUE ORDER IDENTIFIER			

Although each character above has been defined, characters cannot simply be swapped out as attributes change. The auto-generated suffix is unique to each order - even identical orders—allowing us to track your specific wood kit throughout our manufacturing process & deliver it to your specifications.

Here are some key elements to understand when referring to these new part numbers:

- The first 9 digits (indicating size, shape & material) are the only elements that impact price.
- All 16 digits are required to order a wood kit.
- The auto-generated suffix must be created in the configuration tool by either you or one of our customer service representatives.

To explore, design or quote visit legrandav.com or contact our customer service team at 800-266-7225. or email us at av.middleatlantic.techsupport@legrand.com

L5 Series Lectern Wood Kit Decoders

To decode a part from your price list, use the key below. The first 9 digits (indicating size, shape & material) are the only elements that impact price. Pricing is available on your price sheet to make quoting easier. Remember orders require an additional 5-character code which you can get in the configuration tool or from a customer service representative.
