

USB TYPE C

USB2.0 Type C to Type B Cable

The USB3C-87 range of cables are designed to work at the USB2.0 specification. They feature the USB2.0 Type B connector often in older printers and devices. The cables are useful for connecting older USB2.0 devices to modern computers with only a USB Type C socket.

Specification

- Compliant with USB 2.0 specification
- Connector 1: *Type C male*
- Connector 2: *Type B male (USB2.0)*
- Available in 1, 2 or 3m lengths
- 1m Length: 24/32 AWG
- 2m Length: 22/30 AWG
- 3m Length: 23/28 AWG

Reversible Connector

The new USB Type C connector is smaller than most of the previous USB connectors. (Micro B is the exception.) It is also symmetrical; this allows you to plug the connector in either way up.

CODE	DESCRIPTION
USB3C-871	1m USB2.0 Type C to Type B Cable
USB3C-872	2m USB2.0 Type C to Type B Cable
USB3C-873	3m USB2.0 Type C to Type B Cable
