

# SCREEN PROTECTOR

MOBILIS® 

## Anti-Scratch

An easy and economic protection

2 finishes available :  
Clear and Matte

### Key Points

- **Strength** : the strenght of these products is their **economical side**. It's the most accessible Mobilis screen protector.
- **User experience** : Its **PUT composition** doesn't equal a glass touch but keeps a **sliding touch** allows you to fully enjoy all the fonctionnalities of you device.
- **In front of an impact** : Anti-Scratch offer a **simple and effective protection** while being the most economic Mobilis screen protector. **Easily installables**, they protect your screen against all daily small attacks.

### How to choose your finish ?

**You need optimal visibility** : Clear is a transparent finish without any filter between the screen and the eye.

**You use your device outdoors, or don't want to see fingerprints anymore** : The Matte finish removes bothersome light reflections. Its satin finish make fingerprints invisible and keeps your screen clean longer.

More than 2 000 references available for smartphones, tablets, hybrids, notebooks...

#### 4H Hardness anti-scratch

4H grade takes place on a hardness scale up to 10H (for diamond) and determines resistance to touch, pressure, shearing, friction and shock.

#### IK02 norm protection

The IK standard determines the level of protection against mechanical impacts, according to the NF EN 62262 norm (NF C 20-015).

#### Why a screen protector ?

91% of users have already broken a screen !

- On average a screen costs :
- 500 € for a laptop
  - 200 € for a tablet
  - 100 € for a smartphone

Protecting the device 100% of the time increases its lifespan and thus improves the Total Cost of Ownership !
