Delock Ergonomic USB Mouse vertical - wireless

Description

This wireless vertical mouse by Delock is suitable for right handers and will be connected to the computer via the compact USB receiver. During transport it can be placed inside a compartment at the bottom of the mouse. The 2.4 GHz wireless technology provides a maximum operating range of up to 20 meters. Due to its ergonomic design, the hand remains in upright position and does not have to be turned. Thus the mouse can be used preventive or with starting pain e.g. RSI (Repetitive-Strain-Injury). There are three adjustable DPI levels to adapt the sensitivity of the mouse.
