3-Port USB 3.0 Type-C Hub with Card Reader

USB-C Male to Three USB-A Females and SD/MicroSD Card Reader, 5 Gbps Transfer Speeds, Bus Powered, Black

Part No.: 164948

EAN-13: 0766623164948 | UPC: 766623164948

Powerful SuperSpeed (USB 3.2 Gen 1) performance and a card reader/writer in a multiport hub

The Manhattan 3-Port USB 3.0 Type-C Hub with Card Reader lets you add more USB devices to your laptop/desktop computer and access the digital content you have stored on memory cards. The hub lets you create more connections for SuperSpeed USB 3.0 devices, such as a keyboard, mouse, smartphone, tablet, storage device, Web camera and more, while the card reader/writer lets you manage, store, and transfer your pictures and videos. It's backward compatible with previous USB versions to accommodate nearly whatever USB device you may have on hand. Its plug-and-play and hot-swap capabilities, Windows and Mac compatibility and data transfer speed up to 5 Gbps help the Manhattan 3-Port USB 3.2 Gen 1 Hub with Card Reader consolidate numerous, less-capable hubs into a single USB solution.

Connectivity you can carry

This hub's durable case, compact size and bus-power capability mean greater portability for you when it's time for you to be on the move. Since it doesn't require a power supply to make your devices work, you can be on your way as quickly as it takes you to unplug the hub from your upstream device, disconnect your peripherals, and put the devices you want to carry into your laptop bag. The hub is designed to let you stay mobile for all that work and life brings.

Features:
