Security VESA and Wall Mount

For 7-14 inch Tablets

Security VESA and Wall Mount

With clean functionality, sturdy engineering, and a minimalist design, the Security VESA and Wall Mount provides a space-saving, adjustable, and no-nonsense way to secure your tablet to a wall or surface in your office, sales showroom, classroom, or home. The stylish diagonal grip allows easy access to all plugs, headphone jacks, ports, or credit card readers. A convenient and powerful lock and key system prevents theft – nobody can walk away with your tablet without taking your entire wall with them. The adjustable grip and exchangeable foam pads allow this universal wall mount to hold any device you want, with or without a protective case. The sturdy, adjustable arm allows 360 degrees of rotation to allow portrait or landscape orientation, and 30 degrees of tilt means you can avoid glare or awkward angles. The efficiently designed arm holds the device a snug 3-inches away from the wall or surface it's fixed to. Also included are screws, expansion bolts, and keys.

Easily adjusts for horizontal or vertical views
