

Film B&W 100

■ clear 4320 - 100 µm

Transparency film for imaging by laser xerographic process, providing a dense black image on a transparent background.

Suitable for B&W laser equipment. Please refer to your device user manual.

Applications

- Overhead + Overlay

Advantages

- Designed for use on virtually all copiers/printers.

Film B&W 100

■ clear 4320 - 100 µm

List of Printers

Film B&W 100

■ clear 4320 - 100 µm

Physical Properties

Thickness	100 µm	ISO 534
Smoothness Sheffield	10 +/- 6	TAPPI T538
Haze	< 6%	ASTM D1003

Recommended use and storage

For quality reasons this media should be stored and converted under conditions of 30-70% relative humidity and at a temperature of 15-30°C.

Shelf life minimum of 2 years from ship date when stored under ideal storage conditions.

The values provided on this datasheet are only for orientation.

Before using our media please check its compatibility for your printer and intended application. Technical specifications are subject to change, therefore we do not take responsibility for any misprints resulting from technically modified inks and/ or printers. 04.06.2012
