Product Description

The patented MagPro™ Magnetic Privacy Screen Filter for Monitors 23.8" (16:9) can be attached and removed quickly and easily, offering best-in-class privacy protection. An ideal solution for slim bezel or edge-to-edge displays. Privacy screen filter protects monitor from scratches and damage, while providing privacy by limiting viewing angle to +/- 30°. Reduces harmful blue light by up to 52%, diminishes glare and improves clarity. Reversible for matte or glossy viewing options.

Features

- Patented design includes a slim magnetic strip, allowing for quick and easy attachment and removal of privacy screen filter.
- Allows for unobstructed viewing, making it an excellent solution for slim bezel or edge-to-edge displays.
- Limited viewing angle narrows the field of vision to +/- 30 degrees, helping keep the information on your screen private and reducing the chances of a visual data breach.
- Blue light reduction filters out harmful rays by up to 52%, easing eye strain and reducing the chances of interrupting sleep patterns. Low reflective coating reduces glare for improved clarity.
- With reversible viewing options, one side has a matte finish to maximise glare reduction and reduce traces of fingerprints. The other side is glossy and provides a clearer view of the monitor.
- *Applies to matte side
