Ergonomic keyboards

R-Go Compact Break

1. **ULTRA-THIN DESIGN**
   The keyboard is ultra-thin which reduces muscle tension and stimulates blood circulation. This prevents physical complaints.
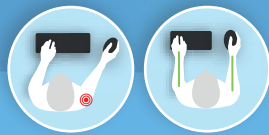

2. **LIGHT KEYSTROKE**
   Has a light keystroke, so you need less power to type.

3. **PATENTED BREAK INDICATOR**
   Contains the patented R-Go Break tool. Colour turns green when you are good to go, orange when it's time to take a break and red when you skipped a break.

4. **NO MORE REACHING**
   When using both keyboard and mouse at the same time, your hands always stay within shoulder width. This natural posture reduces muscle tension in your shoulder and arm and prevents RSI complaints.

R-Go Hygienic Keyboard Cover

- Made from ultra-thin, high quality silicone
- Fits like a glove around every key, so the typing comfort will remain intact
- Easy to shake off dirt, to rinse, to clean in the dishwasher or to disinfect
- Protects against spilling of liquids and crumbs

R-GO HYGIENIC KEYBOARD COVER
Hygienic keyboard cover designed to fit the R-Go Compact Break keyboards

COMPACT LIGHTWEIGHT MODEL
Never reach sideways to your mouse anymore. Easy to take with you, so it's perfect for on the road!

R-GO NUMPAD BREAK
USB connections for connecting the R-Go Numpad Break are available on both sides of the keyboard
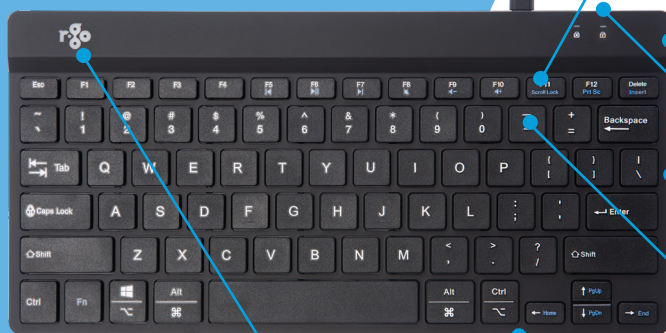

ULTRA-THIN DESIGN
Ultra-thin design to ensure relaxed, flat wrists during typing

LIGHT KEYSTROKE
The special scissor mechanism in the keys provides a light keystroke

100% RECYCLED PLASTIC
The plastic used for this keyboard is 100% recycled

PATENTED BREAK INDICATOR
Download the R-Go Break software via **www.r-go-break.com**

Also available as split keyboard: **R-Go Split Break**

R-Go Break

Ergonomic keyboards with break indicator

Short movements during your working day are vital for your health! Micro breaks prevent overloading of small muscles and tendons and improve your concentration.

Because breaks are often forgotten when you are focused at work, we've developed a break tool that reminds you to interrupt your work on time.

The patented **R-Go Break software** uses colour signals to indicate when it's time to take a break. During keyboard usage, the light changes colour, like a traffic light:

- Green: good job!
- Orange: time for a short break
- Red: You've been working too long

This way you will get positive feedback about your break actions.

For using the R-Go Compact Break and the R-Go Split Break, download the R-Go Break software:
