- Replacement parts available for this product

Highlights

Control with app or voice*

Philips Hue works with Amazon Alexa, Siri and the Google Assistant. Simple voice commands let you dim, brighten or change the colour of your lights, whether you want to control a single lamp or all lights in your home. Voice control requires a Philips Hue Bridge and a compatible partner device.

A stylish plug-and-play lamp

The Philips Hue Iris lamp offers a unique style that complements any home decor. Place the accent lamp anywhere in your home, washing the living room walls with colourful light or setting it on a bedside table for a gentle nightlight.

Beauty meets smarts

The iconic design of the Philips Hue Iris lamp has been reinvented. Available in black or white, the Iris features a fabric-wrapped cord, mixed materials, aluminium inner tube and unique light effect – a wash of colour with a gentle backlight – to create a sophisticated smart lamp.

Smart lights to help you wake up and go to sleep more naturally

Pair your Philips Hue Iris limited edition lamp with the Hue Bridge to unlock Wake up and Go to sleep routines, which help you fall asleep and wake up more naturally. The lamp's deep dimming capabilities paired with its diffused backlight allow you to wake up to your own personal sunrise in the morning as your lights gently brighten, or gradually dim warm white lights to help you drift off to sleep easier.

Control up to 10 lights with the Bluetooth app

With the Hue Bluetooth app, you can control your Hue smart lights in a single room of your home. Add up to 10 smart lights and control them all with just the touch of a button on your mobile device.

Create a personalised experience with colourful smart light

Transform your home with over 16 million colours, instantly creating the right atmosphere for any event. With the touch of a button, you can set a festive mood for a party, turn your living room into a movie theatre, enhance your home decor with colour accents, and much more.

Set the right mood with warm to cool white light

These bulbs and light fixtures offer different shades of warm to cool white light. With complete dimmability from bright to low nightlights, you can tune your lights to the perfect shade and brightness of light for your daily needs.

Get the perfect light recipes for your daily activities

Make your day easier and more pleasant with four pre-set light recipes handcrafted especially for your daily tasks: Energise, Concentrate, Read and Relax. The two cool-toned scenes, Energise and Concentrate, help you get going in the morning or keep your focus, while the warmer scenes of Read and Relax help support comfortable reading or calm a busy mind.

Unlock the full suite of smart lighting features with the Bridge

The Bridge unlocks the features that make smart lighting truly smart – away-from-home control, voice control, automated lighting and much more. Add a Bridge to your setup to create immersive experiences, tap into technology that's secure and reliable, and more. The Bridge is the key to smart lighting like you've never seen before.
