

Office boundary conference microphone, USB & 3.5 mm port, corporate VoIP/Skype, black

DELTAACO

- Crystal clear sound
- Turn a room into a conference room
- Full duplex sound
- Connections: USB-A male, 3.5 mm female
- Microphone frequency response: 100 Hz-10 kHz

The best solution for turning an office room into a conference room, boundary conference microphones captures the sound in fantastic quality. There is also this type of microphone used by, for example, orchestras and musicians for optimal sound recording.

The microphone captures sound 30 cm to 300 cm away. For example, place the unit on a flat table (flat surfaces help sound recording) and connect your speakers or a pair of headphones and let your colleagues experience the difference with pressure zone microphones! Please note that the product requires you to connect either a pair of headphones or speakers to play audio.

Compatibility: For use with Skype for Business, Unified Communication, VoIP, Plug and Play, no additional drivers needed, Windows from 7/8/10, MacOs from 10.0

SPECIFICATIONS
