

AOC HDMI CABLES

7.5m ~ 30m Active Optical HDMI Cables

HDMI Active Optical Cable (AOC) use fibre optic cable to carry the HDMI signal. This means that the signal can be carried much further than a traditional copper cable and reduces the risk of interference.

HDMI AOC cables also have copper wires inside which carries the power so no external power adapter is required.

This cable must be connected with the Source connector & Display connector connected the correct way round
