

# PRODUCT UPDATE

## PRODUCT:

- **CG27900** - 1.5 ft 18 AWG Universal Flat Panel Power Cord (NEMA 5-15P to IEC320C13)
- **CG27901** - 3 ft 18 AWG Universal Flat Panel Power Cord (NEMA 5-15P to IEC320C13)

## MODEL COMPARISON

### PREVIOUS VS. UPDATED DESIGN

#### PREVIOUS MODEL

#### UPDATED VERSION

As part of our commitment to improving product quality and performance while aligning with industry standards, we have made slight enhancements to the male connector.

## WHAT HAS CHANGED?

- The **NEMA 5-15P connector** now includes a subtle visual update, featuring double lines around the pins.

We want to assure you that despite these changes, the cables' high performance remains unaffected, and there will be no impact on their usability.

During this transition period, you may continue to receive shipments of the previous product model until existing distributor stock is depleted. Both the old and new models meet our strict quality standards.

If you have any questions or require additional information, please don't hesitate to contact us. We appreciate your continued support and look forward to providing you with our improved product.
