

YEALINK MEETINGBAR

Android video bar for small and medium rooms

Yealink MeetingBar, the all-in-one video bar is designed for small and medium rooms. Based on the Android 9.0 OS and built-in Microsoft Teams, the Yealink MeetingBar integrates the PC, camera and audio components into a simple video bar for a dedicated meeting room.

A20 small rooms (2-6 users)

A30 medium rooms (7-12 users)

ADVANTAGES OF YEALINK MEETINGBAR SERIES

Buy and ready to use

With built-in Microsoft Teams, the standalone MeetingBar supports plug-and-play without cable cluttering and enables the simple one-click for joining a meeting.

Superior performance

With high-quality audio and video AI-powered performance, MeetingBar ensures space-tailored features and a user-friendly Teams meeting experience.

User-friendly and cost-effective

For more customized features like CTP18 touch panel, WPP20 wireless sharing, and dual-screen display, all you can get from a simple MeetingBar solution.

Easy to monitor and manage

Through Yealink Device Management Platform/Cloud Service, users can manage, monitor, configure, update and diagnose all Yealink devices remotely.
