

The Adesso Xtream M1 is a compact gooseneck microphone designed to provide you with outstanding sound for communicating and recording. Powered by the high-speed USB technology and driven by unparallelled audio acoustics, this hands-free microphone facilitates PC recording, voice recognition and more. It has the ability to cancel noise for an undeterred performance even in challenging conditions.

■ Noise Reduction Technology

The Intelligent Noise cancelling technology can pick up your smooth and accurate voice and reduce background noise and echo.

■ Clear Sound Quality

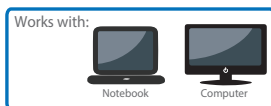

High-quality omnidirectional pattern condenser microphone can pick up voice accurately, clearly, and smoothly, suitable for dictation and online-classroom. Perfect for online talking, Skype, Youtube, Skype, Google Hangout, Facetime, Zoom, and GoToMeeting, etc.

■ Convenient ON/OFF Button

You can quickly mute the microphone with the ON/OFF button at the back panel.

■ 360 Degrees Adjustable Gooseneck

Adopted flexible and adjustable gooseneck metal pipe, easily adjust position 360 degrees to suit user comfort. The compact and stable base maximize your desktop space.
