Typically used along with the following: 1. RAM Clamp Base, Rail Base or Round Plate Base. Refer to Common Mounting Systems TAG for details.

Direct to Device Charging (power supplies that connect directly to tablet)

Part Number	Picture	Description	Notes	Required Items
-------------	---------	-------------	-------	----------------

450154		Spare AC Power Supply to Tablet	<ul style="list-style-type: none"> ►This is a spare power supply. This power supply normally ships with each L10 series Android tablet. L10 Android tablets require the AC Line Cord (i.e. 450040 to be ordered separately). ►Power supply also used when using the Spare Battery Charger (450166) in stand-alone mode. ►Uses IEC 320 C5 style AC Line Cord 	AC Line Cord (450040)
450159 (with US AC Line Cord) 450160 (with Australia/New Zealand AC Line Cord) 450161 (with EU AC Line Cord) 450162 (with UK AC Line Cord)		Spare AC Power Supply KIT to Tablet	<ul style="list-style-type: none"> ►This is a spare power supply. This power supply KIT normally ships with each L10 series Windows tablet. ►Power supply also used when using the Spare Battery Charger (450166) in stand-alone mode. ►Uses IEC 320 C5 style AC Line Cord ►Kit includes country specific AC Line Cord 	
450140		Lind Cigarette Lighter Adapter (CLA) Kit to Tablet, for 12-16V vehicles	<ul style="list-style-type: none"> ►Typically used when in-vehicle charging via the L10's side power jack is needed. Not used with any docking station. ►Designed for vehicles providing 12-16V power. ►20 volt output ►Includes 36" length, 20 AWG, 1.7 mm x 5.5mm Right Angle tip connector cable (450142). ►Can be converted to connect directly to vehicle power using Direct Wire Power Cable with inline fuse (450139). 	
450141		Lind Cigarette Lighter Adapter (CLA) Kit to Tablet, for 12-32V vehicles	<ul style="list-style-type: none"> ►Typically used when in-vehicle charging via the L10's side power jack is needed. Not used with any docking station. ►Designed for vehicles providing 12-32V power. ►20 volt output ►Includes 36" length, 20 AWG, 1.7 mm x 5.5mm Right Angle tip connector cable (450142). ►Can be converted to connect directly to vehicle power using Direct Wire Power Cable (450134). 	
450151		Direct Wire Power Adapter Kit to Tablet, for 20-60V vehicles	<ul style="list-style-type: none"> ►Typically used when in-vehicle charging via the L10's side power jack is needed. Not used with any docking station. ►Designed for vehicles providing 20-60V power. ►19 volt output ►Uses 1.7 mm x 5.5mm tip connector 	

450139		Direct Wire Power Cable, with inline fuse	<ul style="list-style-type: none"> Used to connect Lind Cigarette Lighter Adapter (CLA) Kit for 12-16V vehicles (450140) directly to vehicle power. This cable replaces the Cigarette Lighter Adapter cable included with the CLA Kit (450140). Cable includes fuse assembly since the power block on 450140 does not contain a fuse. 	Lind Cigarette Lighter Adapter (CLA) Kit for 12-16V vehicles (450140)
450134		Direct Wire Power Cable	<ul style="list-style-type: none"> Used to connect Lind Cigarette Lighter Adapter (CLA) Kit for 12-32V vehicles (450141) directly to vehicle power. This cable replaces the Cigarette Lighter Adapter cable included with the CLA Kit (450141). Kit does not include fuse assembly since the power block on 450141 includes this. 	Lind Cigarette Lighter Adapter (CLA) Kit for 12-32V vehicles (450141)
450142		Lind Replacement Cigarette Lighter Adapter (CLA) Cable	<ul style="list-style-type: none"> This is a spare/replacement cable. Cable is normally included with Cigarette Lighter Adapter Kits (450140 or 450141). Cable connects the L10 tablet to the Lind power block. 36" length, 20 AWG, 1.7 mm x 5.5mm Right Angle tip connector cable. 	
XP2035-2396 (3rd party) * http://www.lindelectronics.com		Lind Cigarette Lighter Adapter (CLA) Kit	<ul style="list-style-type: none"> Typically used when in-vehicle charging via the L10's side power jack is needed. Not used with any docking station. 12-32 VDC input Includes: <ul style="list-style-type: none"> Cigarette Lighter Plug 36" Input Cable 5.5x1.7 36" Output Cable Low Input Voltage Disconnect High Input Voltage Disconnect Output Short Circuit Protection Output Overcurrent Protection Internal Over Temperature Protection Not recommended for use due to lack of strain relief on cable to L10 tablet. Use 450141 instead. 	

CG-X (3rd party) * http://www.havis.com		Havis Charge-Guard Auto Shutoff Timer	<ul style="list-style-type: none"> Automatically turns mobile equipment on when vehicle engine is started. When engine is turned off timer can be configured to keep equipment on from 5 seconds to 18 hours. Will turn equipment off before pre-set time if voltage drops too low, preventing dead vehicle battery. Also disconnects power to equipment if over voltage condition occurs (+18V). Diagnostic LED helps troubleshoot voltage problems. Compatible with 12V vehicle systems.

Vehicle Cradles and Holders

Powered Cradles and Holders (provides device charging and/or communication)

Part Number	Picture	Description	Notes	Required Items
300142		Vehicle Dock - powered with xDIM module	<ul style="list-style-type: none"> Holds rugged tablet in place under extreme vibration and stress. Shock and Vibration: Minimum Integrity Vibration: Category 24 I Unit is not operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, Method 514.6, Procedure I Vehicle Vibration: Unit is operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, US Highway Truck and Composite Wheel, Method 514.6C-1 and 514.6C-3 Functional Shock: 40 g operating (peak); 11 ms, saw tooth 6+/- shocks x 3-axis=18 shocks I MIL-STD-810G, Method 516.6, Procedure I Barrel-style keylock provides secure vehicle docking. Easy one-hand release allows for fast "grab and go" transitions between the vehicle, field, and office. Resistant to water and dust ingress (IP55). Provides charging via included Cigarette Lighter adapter - compatible with 12-14V vehicle systems. Provides two USB 2.0 ports which are powered from the tablet. External power not required for ports to operate. USB ports capable of providing enough current for DS3608-ER in default full-power mode. USB cables should be terminated in dry area of the vehicle. Compatible with all L10 series models. Supports VESA 100x50 and VESA 100x100 hole mounting pattern. Includes four screws for mounting. For other powering options besides 12-14V Cigarette Lighter Adapter, see section below. Not compatible with ATEX/IECEX versions of L10 which have a thicker armored case. 	

300144		Vehicle Dock - powered with xDIM module and RF Pass Through Antennas	<ul style="list-style-type: none"> •Holds rugged tablet in place under extreme vibration and stress. - Shock and Vibration: Minimum Integrity Vibration: Category 24 I Unit is not operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, Method 514.6, Procedure I - Vehicle Vibration: Unit is operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, US Highway Truck and Composite Wheel, Method 514.6C-1 and 514.6C-3 - Functional Shock: 40 g operating (peak); 11 ms, saw tooth 6+/- shocks x 3-axis=18 shocks I MIL-STD-810G, Method 516.6, Procedure I •Barrel-style keylock provides secure vehicle docking. •Easy one-hand release allows for fast "grab and go" transitions between the vehicle, field, and office. •Resistant to water and dust ingress (IP55). •Provides charging via included Cigarette Lighter adapter - compatible with 12-14V vehicle systems. •Provides two USB 2.0 ports which are powered from the tablet. External power not required for ports to operate. •USB ports capable of providing enough current for DS3608-ER in default full-power mode. •USB cables should be terminated in dry area of the vehicle. •Dock provides MIMO WWAN (2 connections), MIMO WLAN (2 connections), and GPS antenna pass-through connections for improved in-vehicle signal strength and throughput (external antennas and cables purchased separately). •Compatible with all L10 series models with antenna pass-through on back of tablet option. •Not compatible with ATEX/IECEX versions of L10 which have a thicker armored case. •Supports VESA 100x50 and VESA 100x100 hole mounting pattern. •Includes four screws for mounting. •For other powering options besides 12-14V Cigarette Lighter Adapter, see section below. 	•See Mobile Mark antenna options below for external antenna
Un-Powered Cradles and Holders (passive holders, no charging support)				
Part Number	Picture	Description	Notes	Required Items

300139		Vehicle Dock - passive/un-powered	<ul style="list-style-type: none"> •Holds rugged tablet in place under extreme vibration and stress. - Shock and Vibration: Minimum Integrity Vibration: Category 24 I Unit is not operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, Method 514.6, Procedure I - Vehicle Vibration: Unit is operating (Tablet with Dock and Vehicle Kit) I MIL-STD-810G, US Highway Truck and Composite Wheel, Method 514.6C-1 and 514.6C-3 - Functional Shock: 40 g operating (peak); 11 ms, saw tooth 6+/- shocks x 3-axis=18 shocks I MIL-STD-810G, Method 516.6, Procedure I •Barrel-style keylock provides secure vehicle docking. •Easy one-hand release allows for fast "grab and go" transitions between the vehicle, field, and office. •Resistant to water and dust ingress (IP55). •Compatible with all L10 series models except ATEX/IECEX versions which have a thicker armored case.. •Can be converted to powered cradle w/USB ports (same as 300142) by installing optional xDIM Module G3 with Cigarette Lighter Adapter (300140). •Supports VESA 100x50 and VESA 100x100 hole mounting pattern. •Includes four screws for mounting.
