Technical Specifications

HP Universal Keyed Cable Lock

Secure your devices almost anywhere with a durable, resettable combination cable lock that fits Standard, Wedge and Nano lock slots. Durable, sleek, and compact, it keeps your device protected without getting in the way of your work.

Lock any device with ease.

Secure all devices with one universal lock that rotates to match any lock type - Standard, Wedge, or Nano.

Strength you can trust.

Crafted from galvanized steel, this cut-resistant cable offers superior strength, protecting your devices against theft and tampering.

Three lock types in one smart design.

Secure any device by rotating the wheel to switch between Standard, Wedge, and Nano lock head types, no separate locks required.

HP Universal Resettable Combination Cable Lock

Secure your devices almost anywhere with a durable, resettable combination cable lock that fits Standard, Wedge and Nano lock slots. Durable, sleek, and compact, it keeps your device protected without getting in the way of your work.

Strong materials, stronger security.

Safeguard devices with a secure, resettable combination lock crafted from cut-resistant, galvanized steel and zinc alloy. It is designed to deter theft and anchor devices firmly to desks or shelves for lasting protection.

Three lock types in one smart design.

Secure any device with ease. The universal lock head offers 3 switchable types—Standard, Wedge, and Nano, selected with a simple wheel rotation. No more juggling multiple locks. Initials on the rotary head make identification quick and effortless.

Turn less, protect more.

This sleek, compact lock is built for effortless use. A 90° cable angle, 360° swivel cable joint and lock tip, and fewer turns to secure keep cords tangle-free, without the hassle of manually changing lock heads to select the right type.

HP Keyed Cable Lock 10mm and HP Master Keyed Cable Lock 10 mm

Secure your business PC.

Help keep your business PC safe in the office and high-traffic areas by tethering it to a secure surface with the HP Keyed Cable Lock 10mm and HP Master Keyed Cable Lock 10mm.

Loop and lock.

Wrap the 6 ft (1.83 m) vinyl-coated, galvanized steel cable around any secure object and attach to your business PC. Insert the key into the lock and turn clockwise 90 degrees to lock.

Room to move.

Use the 360 degree range to position the cable as needed before you lock.

Rest easy.

Get the reassurance of a one-year limited warranty.

NOTE: HP Security Cable locks are designed, tested, and proven to be an economical and effective deterrent to help prevent opportunistic theft. While HP Security Cable locks help protect supported computer equipment from theft, they are not designed to provide impervious protection and should not be relied on as the sole security solution for your equipment. HP Security Cable locks are only one of several methods that should be employed as part of a complete security solution to help maximize theft protection.

Technical Specifications

HP Combination Lock

Put a spin on your business PC lock with the HP Combination Lock, designed for any HP business PC with a standard lock slot. Loop and lock with a unique pre-set combination. Route the 6 ft (1.83 m) vinyl-coated, galvanized steel cable around any secure object, attach to your business PC, and lock with the push-button mechanism and the factory-set four-digit combination. Room to move. The cable head swivels 360 degrees to help you position the cable as needed before you lock. Rest easy. Get the reassurance of a one-year limited warranty.

NOTE: HP Security Cable locks are designed, tested, and proven to be an economical and effective deterrent to help prevent opportunistic theft. HP Security Cable locks are only one of several methods that should be employed as part of a complete security solution to help maximize theft protection.

HP Sure Key Cable Lock

Truly universal locking
Take the guess work out of securing your business PC, display, dock, and accessories with the removeable, interchangeable heads of the HP Sure Key Cable Lock.¹
Frustration-free locking
It's easier than ever to secure your multi-platform business PC and tablet fleet with one lock that works with the most common industry-standard lock slots.¹
Loop and lock with one touch
Deter tech theft by attaching the correct lock head to the 6 ft (1.83 m) galvanized steel cable and wrapping it around any fixed object. Insert the lock into your business PC, dock or tablet's lock slot¹, and push the lock to secure.

¹Supports standard, nano, and wedge lock slot
