10GBase-LR/LW SFP+ LC Module - Singlemode

[Lindy 10GBase-LR/LW SFP+ LC Module - Singlemode:](#)

The LINDY Transceiver Module allows a 10 Gigabit fibre optic connection to your network. Simply connect this module to your 10G Ethernet switch or to an Extender with SFP+ slot with a singlemode LC duplex cable for quick and easy connectivity.

Standard SFP+ Module for common networking systems like Cisco, HP, Dell, Ubiquiti, D-Link, Zyxel, Netgear, Arista, Juniper or for mainboards with SFP+ slots like SuperMicro, Asus, Gigabyte and Asrock.

The module is built to comply with MSA (Multi Sourcing Agreement) standards and uses the industry standard LC interface to extend your network connectivity up to 10Km. It is also fully hot pluggable, which enables you to install it without powering down your network switch and interrupting traffic flow.

Please note: This module is only compatible with 10G switches. 1G or Fast Ethernet switches are not supported.
