COMPACT & SWIFT

The ROG Falchion Ace HFX is a compact 65% analog gaming keyboard that boasts ROG HFX Magnetic Switches that feature a customizable 0.1-4.0 mm actuation range, along with a dedicated Rapid Trigger toggle for the fastest typing response. Plus, an 8000 Hz polling rate ensures ultra-responsive performance, making the Falchion Ace HFX considerably faster than competitor keyboards. Five-layer dampening and a silicone gasket mount absorb pinging noises and vibrations to provide superior typing experiences. A multifunction button and interactive touch panel allow for intuitive and effortless actuation point adjustments, control over media playback, volume, and keyboard lighting. Dual USB-C® ports on the left and right rear panel of the keyboard offer flexible connectivity, with a quick-toggle to switch between two PCs.
