Lindy 2 Port USB KM Switch

Brand : Lindy

Product name : 2 Port USB KM Switch

Product code: 32165

2 Port USB KM Switch

Lindy 2 Port USB KM Switch:

The Lindy 2 Port USB Keyboard and Mouse Switch allows users to control two computers with independent displays from a single Keyboard and Mouse.

As well as hotkey switching, unique software provides simple switching between computers by sweeping a mouse across screens.

True Transparent USB emulation technology allows the KM Switch to recognise specific keyboard and mouse models and allows access to all of their functions giving the KM Switch near universal compatibility.

Simple to set-up and compatible with a wide range of Lindy USB Extenders the KM switch is ideal for education and business environments or for helping make the most of IT equipment in the home.Please Note:The included software for auto switching via mouse requires Windows display scaling at 100%

Please note: Software control and hotkey switching are not currently compatible with devices supporting macOS 10.15. This is due to an incompatibility between macOS 10.15 and 32-bit software.

Ports & interfaces

Number of computers controlled *	2
Keyboard port type *	USB
Mouse port type *	USB
USB 2.0 ports quantity	3
Audio connections	✘

Design

Rack mounting *	✘
