Adhesive Synthetic Paper is an ideal choice for signage that requires adhesive backing.

This is an affordable, polypropylene-base media, which is thin, light, and very flexible with a durable, wet-strength base. It delivers accurate colours and vivid results on its high-quality matte surface. As an instant-drying paper, it's excellent for indoor banners and outdoor signage. When laminated, it's perfect for outdoor signage applications as well. Best of all, its adhesive backing makes it possible to remove and reposition signage for easy mounting. Like all of Epson's innovative media, this paper is engineered to give you the highest resolution and colour saturation possible. Epson's printer driver software actually optimises the amount of ink released onto the page, based on the type of paper used. As always, EPSON supplies guarantee EPSON quality.
