[Lindy HDMI to Composite and Stereo Audio Converter:](#)

The Lindy HDMI to Composite and Stereo Audio Converter is a compact device which simply connects modern digital AV equipment, to analogue displays. Ideal for use in presentations, tradeshow, retail and entertainment when newer HDMI devices must be connected to legacy displays and projectors.

This easy to use, compact device supports Full HD input resolutions and audio from HDMI and converts this into Composite and Stereo audio signals. Simple, integrated controls allow the user to quickly switch between output video formats depending on the display.
